

3M™ Paint Protection Film Series

Important User Information and Material Warranty

User Instructions and Warranty Information

Your vehicle finish is protected with 3M's Scotchgard™ Paint Protection Film Series. Thank you for making this investment!

Care Instructions

The user is responsible for ensuring compliance with the following instructions. 3M's warranty below will only apply if the following has been observed:

1. After film installation, wait at least 72 hours before washing or waxing your vehicle to help ensure proper adhesion build of the film has been achieved (see date below).
2. Only manual cleaning should be carried out using a soft sponge or cloth. A clean leather or microfiber cloth is recommended for drying. Hard sponges or cloths should not be used.
3. Use only clean water for cleaning. Sand and other abrasive particles will scratch the film.
4. Commercial cleaning agents may be used for cleaning, so long as they do not contain abrasive components.
5. Use waxes that do not contain dyes, abrasive polishes and/or rubbing compounds.
6. Never use dry cleaning methods or products on the film.
7. Never use any chemicals, bleaches or other compounds to clean the film.

Subject to compliance with the above care instructions and always provided that the application has carried out by a 3M Authorized Autocare Center for Paint Protection Film and applied by a 3M endorsed installer ("3M Select Application"), 3M warrants for the warranty period below that the Scotchgard Paint Protection Film Series will be free of defects in material and manufacture including:
